Hazard statements

Harmful if swallowed. May cause damage to organs through prolonged or repeated exposure. May cause drowsiness or dizziness

Precautionary statements

General:

Do not handle until all safety precautions have been read and understood. Do not eat, drink or smoke when using this product. Wash skin thoroughly after handling. Wear personal protective equipment

Response:

IF ON SKIN: Remove contaminated clothing. Wash exposed area with soap and water. If symptoms persist seek medical attention. Wash contaminated clothing before re-use. IF SWALLOWED: Seek medical attention immediately. Do not give anything by mouth. Do not induce vomiting. If individual is drowsy or unconscious place on the left side with head down. Do not leave individual unattended. IF INHALED: Move affected person to fresh air and keep warm and at rest. Loosen tight clothing such as collar, tie or belt. If breathing becomes difficult, properly trained personnel can assist affected person by administering oxygen. Place unconscious person on their side in the recovery position and ensure breathing continues. EYE CONTACT: Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 10 minutes. If symptoms persist or there is visual difficulty seek medical attention.

Storage:

Keep storage area well ventilated. Store in accordance with local regulations. Containers of this material may be hazardous when emptied due to product residue. All hazard precautions must be observed with empty containers. Do not store in unlabeled containers.

3.1. Personal protective equipment (PPE)

Eye/face protection

Recommended: Safety glasses equipped with side shields. Where splash hazards exist use a face shield as well. Have suitable eye wash water available.

Skin/hand protection

Recommended: Heavy Nitrile or Neoprene gloves if frequent or prolonged exposure is expected. Recommended: Avoid prolonged / repeated skin contact. If splashing or spraying is expected chemical resistant clothing should be worn.

Respiratory protection

Respiratory protection is not anticipated under normal use. If elevated airborne concentrations are anticipated, a NIOSH approved organic vapour respirator equipped with a dust prefilter should be used.
